Vision Quests

Fall Harvest Walkabout Vision Quest

Vision Your Life and Live Your Vision

Saturday, October 8, 2022

Sunrise to Sunset 7:00 am to 7:30 pm

Novelty, Ohio

Hosted by Spirit of Leadership, Catalyst Consulting, and iSOLVit
Guided by Jackie Lowe Stevenson, Leslie Yerkes, Kathy Telban

The Autumn season is a wonderful time for questing, visioning and harvesting our dreams as we join the colorful graceful movement of fall and its ever changing lessons of courage, hope and possibility, and its many gifts of change.

A Vision Quest can serve a variety of intentions: celebrating life changes, a rite of passage, discovering purpose, facing fears, finding answers from the heart, seeking inner peace and healing, honoring life and opening to wisdom for oneself and for your community. This design will help individuals in their families, teams and communities have a shared experience.

As long as autumn lasts, I shall not have hands, canvas and colors enough to paint the beautiful things I see. Vincent Van Gogh

We call for a vision to begin to discover

- What is my personal calling?
- What is my contribution to make a positive difference within my lifetime?
- What legacy will I leave for the benefit of the planet?

We promise to create a safe space for time to dream, reflect, share, stretch your muscles and your mind, release old patterns, and make room to envision your life. We will bring in cross-culture approaches and indigenous practices including a Native American Medicine Wheel. We will provide a unique, healing, and quiet environment.

Join our Circle of Learning Fall Harvest Walkabout Vision Quest surrounded by the beauty and wonder of Nature.

Your Harvest Walkabout Vision Quest is an opportunity to:

- Slow down with the grace of falling leaves; become quiet and listen to what is trying to emerge from within you to be better able to flow with the fall winds of change and opportunity.
- Let Go to Let Come; raking up those leaves of old regrets, mistakes, things we wished we done differently, the fertile earth of possibility and creativity beneath can be seen.
- Find your places of power, peace and belonging. You might just discover your focus, flow, and natural wisdom to enhance how you work, play, live and love.
- Prepare, protect and preserve life; in fall animals prepare for the winter by storing food and creating cozy hibernation spaces. What might you learn from nature's preservation and preparation to prepare for your life challenges?
- Explore your relationship to change - "The only constant is change." Fall season reflects our human journey of change, reminding us of the impermanence of life and the importance of appreciating and embracing what matters most to us.
- Accept the unknown and changing nature of life as each moment presents you with new mysteries. Be open to the fall winds of change, the leaves dance of letting go, the crisp fall air personify the unknowns. Once we accept the unknowns, we have more capacity to live life to the fullest.

Group or individual coaching sessions after your quest are available.

Please indicate your interest on the registration form and we will reach out to you to discuss and schedule

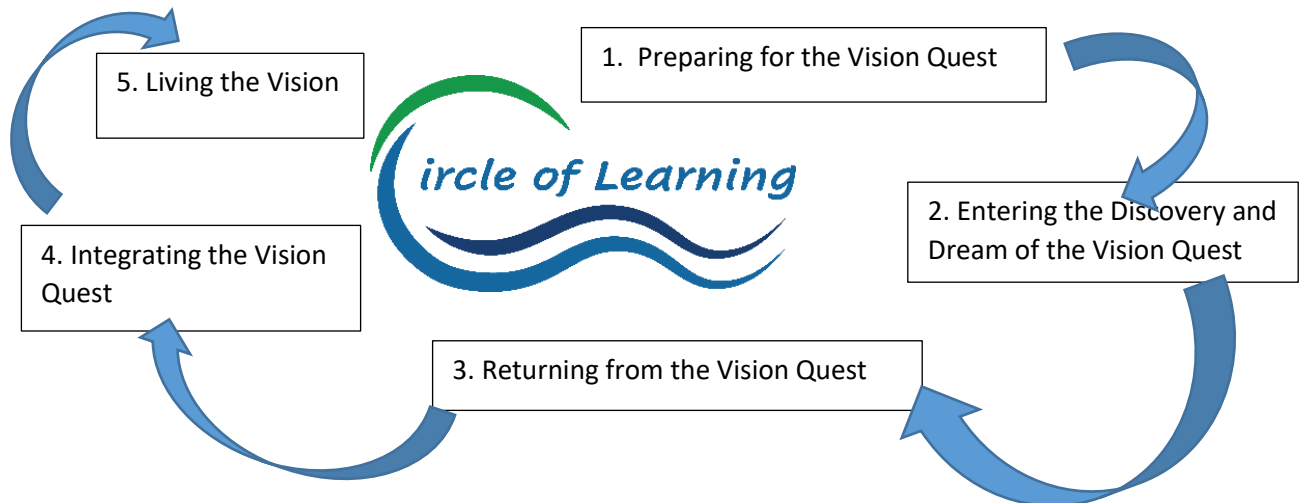

These vision quest sessions can be used to meet continuing education requirements for Board Certified Coaching (BCC) and Accountancy Board of Ohio. Let us know if you have other certification needs that we should consider.

Autumn ... the year's last, loveliest smile. William Cullen Bryant

Vision Quest Walkabout Process

The Community Circle of people, horses and the natural world will support you in your quest.

Preparing for the Vision Quest

- We will prepare for our vision quest by meeting the land, and horse and human herd, setting your intentions, discovering your questing place, and creating your sacred circle and places of power.

Entering the Discovery and Dream of the Vision Quest

- You will be supported during your quest as we hold your presence.
- Be in alone time in silence to listen and learn from the horses and the natural realm.
- Explore your inner and the outer landscape of your life in a visioning walkabout.

Returning from the Vision Quest

- We will help you celebrate and process your vision quest and explore your growing edge.

Integrating the Vision Quest

- Weaving the stories and threads of knowing into meaningful information.
- Exploring ways to integrate your experience into your daily life.

Living the Vision

- This is for you to be in touch with and present to your deeper waters, your deeply rooted earthliness, your ancient stone bone memories.
- Your familiar patterns are challenged, and your untapped resources become available.
- Seek to understand what has been offered to you.
- The changes you make are your choice.
- Begin to live what has been within you all along, has been remembered, and rediscovered.

You will:

- Go within to find your center and balance in a world filled with uncertainty and change.
- Bring wisdom from the past and from within into guiding your future.
- Listen for the big questions and messages in the presence of horses and the wild.
- Be provided with a journal so you can reflect and write about your journey.

After these tumultuous years of challenge and change we are feeling the need to offer sessions to help you envision your life and deepen connections. This design will help individuals in their families, teams and communities have a shared experience.
