

Dreaming our Life -Tending to Our Dreams

A Retreat Guided by Horses, Nature, and Your Dreams

Dream Your World into being

From ancient times, dreams have been gateways between worlds - bridges between soul, story, and destiny

With horses and nature guiding us, we enter dreamtime as a sacred realm of remembering, where forgotten truths are restored and future paths are revealed.

Here, we tend our dreams like holy fires, learning to listen to their symbols, rhythms, and calls, so that we may live more fully the life that is longing to be born through us.

Join us Sunday May 3, 9:00 am - 4:00

Location: Pebble Ledge Ranch, 9796 Cedar Road, Novelty, OH,4407

FEE: \$135

For information and registration contact Jackie jacalynstevenson@gmail.com

**This is an invitation to remember, to listen.
To live more fully into the dream that is your life.**

Awaken the Power of Your Living Dreams

Dreams whisper to us in childhood, speak through the seasons of our present lives, and beckon from the horizon of the future. They arrive in images, feelings, symbols, longings, and sudden moments of knowing. Some come softly, like mist at dawn others shake us awake like a storm.

Experiencing the dream world expands our awareness of the soul's journey through life. The challenge is not that we have too few dreams but that we forget to listen to them— to bring them into awareness, to recognize which ones are asking to be cherished, followed, and lovingly brought into form

In this retreat, we will:

- Explore personal and collective dreams
- Work with dream images, stories, and body wisdom
- Listen to the guidance of the horses and the land
- Reflect in small circles of trust and presence
- Sense what is ready to be honored, released, or brought into action

Together, we will tend our dreams as living guides —honoring what has shaped us, welcoming what is unfolding, and courageously stepping toward what is calling us forward.
