

Dreaming our Life -Tending to Our Dreams

A Retreat Guided by Horses, Nature, and Your Dreams

Dream Your World into being

Horses and nature guide us into dreamtime, both in sleep and waking visions, as a source of remembering, visioning and healing.

Horses, attuned to energy and presence, invite us into deeper intuition, revealing what lies beyond our waking minds. Nature, with its rhythms, reminds us that dreams are woven into our becoming.

Dreams whisper from childhood, speak through the present, and beckon from the future. What we dream of and long for reveals what already lives within us and what truly matters in our lives.

Join us Sunday May 4, 9:00 am - 4:00 pm

Location: Pebble Ledge Ranch, 9796 Cedar Road, Novelty, OH, 4407

FEE: \$135

Awaken the Power of Your Living Dreams

Experience in the dream world expands the awareness of our life journey. The challenge is not that we have too few dreams or visions but in moving them to our awareness and recognizing which ones to cherish, follow and bring to action.
